Product Description

The professional stainless steel preservation chamber "TH D2 140M" combines craftsmanship and efficiency, making it ideal for professional spaces that need easy access and style.

Featuring two stainless steel doors, the chamber offers plenty of storage space. The AISI304 stainless steel construction offers durability and reliability for long-term use.

The built-in electronic thermostat allows precise temperature control, ensuring optimal preservation of your products.

The automatic defrost system ensures continuous and efficient operation. The doors are equipped with snap-on magnetic seals, which ensure a hermetic seal and energy efficiency.

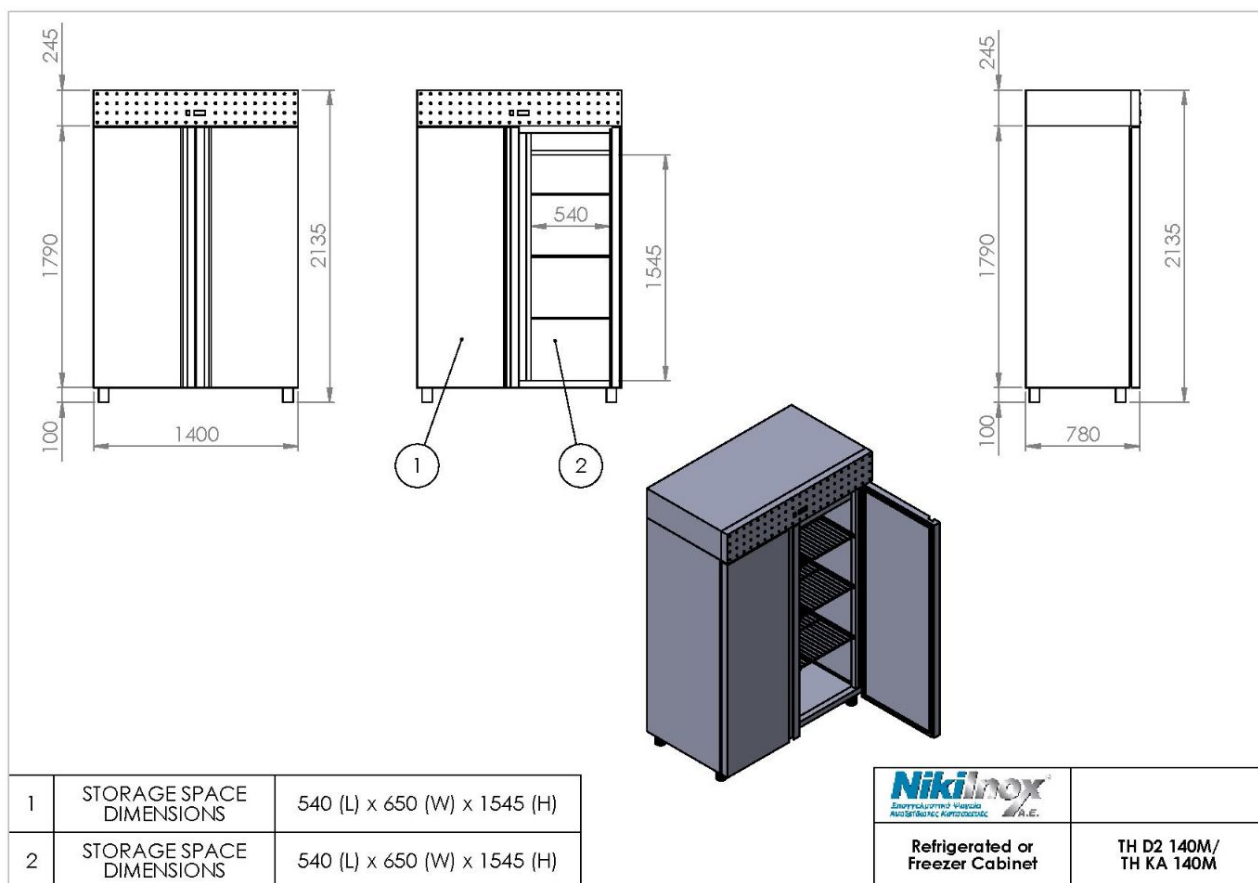

Each door has 3 racks, providing flexibility and the ability to better organize stocks.

In addition, the chamber can accommodate a 2/1 gastronorm or two 1/1 gastronorms, giving additional flexibility to the storage.

The "TH D2 140M" is the perfect choice for professionals who demand excellent performance and elegant design in their freezer.
